

In regards to a recent Press Telegram article, I wanted to set the record straight on recent negative attacks put forth by the Gabriella Holt campaign and the provably false reporting in the Press Telegram.

Here is a comment about the article posted on the Press Telegram website which best illustrates some of the points.

"I find it interesting that Gabriella Holt surrogate, John Stammreich, has resorted to negative remarks so soon in this campaign. This is a good indication of Ms. Holt's weakness as a candidate. If Proposition 93 incumbent term limit extensions had passed, Ms. Holt would not be running for State Assembly this year.

Factual errors in this article that should have been caught prior to publishing are:

- Michael A. Jackson has never been employed by Boeing.
- Gabriella Holt did not raise \$113,995. She loaned her campaign \$100,000.00 (the maximum allowed before it becomes a contribution). Her husband and sons donated \$4,049. Loaning yourself money is a common political insider technique of using smoke and mirrors to fool the voters into thinking the candidate has major support that is just not there.
- Michael A. Jackson has filed a campaign report as required by State Law.

More smoke and mirrors:

- Ms. Holt is a Registered Nurse, but it appears that she has not worked as a Nurse for over two decades. She has worked at managing a tax payer funded, small city cable channel for the last five years. Holt reported that the polling shows a nurse could win in this district.

Citizens throughout the 54th District have met and been impressed with the candor and honest approach that Mr. Jackson brings to his campaign. California needs more candidates with Michael's dedication to doing the right thing for the citizens of this district and our state."

Also in regards to John Stammreich's negative campaigning, go to the following link to read a 2007 press release that tells the real story: [Transparency Not Wanted](#). The press release did not include the later determination that the main reason for the Los Angeles County Republican Party's Actions was that they had finally found a candidate that they thought could beat me in a primary and there was no dirt on me (Secret Security Clearance almost continuously since I was 18), so they attempted to manufacture some.

One parliamentary note, according to Robert's Rules of Order, the chair of an organization is supposed to remain impartial.

Please forward this to your contacts to get the truth out about this race.
